

#THINGS2CONSIDER: Stipending Youth and Young Adults Presented by Youth M.O.V.E National

The TA Tidbit is an online publication of the TA Network that highlights resources developed or provided in response to requests from SAMHSA SOC grantees on various topics.

This month, we highlight a helpful infographic developed by Youth M.O.V.E National on considerations when providing stipends for youth and young adults. System partners are encouraged to consider stipends as a creative way of supporting and engaging youth advocates, who are not formally employed by programs. This resource highlights the importance of incorporating youth in developing stipend and compensation policies, addresses long-term sustainability, and encourages creativity in exploring nonmonetary forms of compensation.
